June 2012

Dear <Parent Forename>, <Twin 1 Forename> and <Twin 2 Forename>,

Some months ago your family returned booklets as part of the TEDS Behaviour Study – many thanks for your help with our research! We would now like to invite you to take part in phase two of the study.

The booklets enclosed will again ask you about your or your children’s thoughts, feelings and behaviours. There will also be questions about perceptions and experiences that you or they may or may not have had. Some questions you will have seen before – we understand that it may feel repetitive to answer the same questions again, but a crucial part of our investigations is to look at the stability and variation in these behaviours, and so these responses are very valuable to us.

To say thank you for your participation we would again like to send either a £10 Love2Shop or iTunes voucher to each of the children on receipt of the completed questionnaires. There will also be a prize draw for participants with two iPad3s up for grabs!

It is up to you to decide whether or not to take part. If you do take part you are free to withdraw yourself and your data from the study at any time. All information collected during the course of the research will be kept strictly confidential. The data that you provide will be entered into a dataset and you will be identified in this dataset only by participant number. If you are happy to participate, please don’t forget to return the consent slip below along with your completed questionnaires!

Thank you for your continued support of the Twins Early Development Study.

Yours sincerely,

Professor Robert Plomin

✂ _____

Yes, I have received and read the invitation letter and information sheet and agree that my children and I will take part in the TEDS Behaviour Study
