September 2017

Dear <forename>,

We are writing to invite you to take part in our new study – TEDS-21. This is an exciting new study aimed at finding out about a range of issues that affect your life as a young adult. You will find more detailed information about the study in the information sheet that you will find when you first log in to take part.

The study consists of a series of questionnaires on different themes which typically takes about 45 – 55 minutes to complete. You can log off at any point - when you log back in you will be able to continue from where you left off. After each theme you will find personalised feedback showing you how your answers compare with the average for people of your age.

The quickest and easiest way to complete the questionnaires is via our specially designed TEDS app (details below on how to find it). If you are unable to download the app you can follow this link:

<https://studies.teds.ac.uk/join/teds21> which has been designed for use on a PC/laptop.

To thank you for taking the time to help us with this important research we will send you a £10 electronic Love2Shop voucher when you have completed the study.

Here's how to get started:

iPhone users: search for TEDS 21 on iTunes (note the space between TEDS and 21!)

Android users: search for TEDS21 on the Play Store

Username: <username>

Password: <password>

We are very grateful for your help with our research.

Best Wishes

TEDS Team
