<b>TEDS Parent DNA Study</b>	Version Number 2: 29/11/21
Ethical review reference number: PNM/09/10-104	<b>Tick</b>
1. I have read and understood the information sheet (Version 2: 29/11/21) for this study. I have had the opportunity to ask questions which have been answered to my satisfaction.	
2. I understand that my participation is voluntary and that I am free to withdraw my saliva sample up to <b>1 month</b> after I have consented. After this time, I have the right to ask TEDS to destroy my DNA sample, but it will not be possible to remove genotyped data. I can also opt out of the current study or permanently withdraw from TEDS at any time, without having to give a reason and without my legal rights being affected.	
3. I understand that if I decide to withdraw from this phase of TEDS data collection, it may not be possible for TEDS to delete data that I have provided in previous studies.	
4. I agree to give a saliva sample for research as outlined in the information sheet.	
5. I agree to long-term, anonymised storage of my DNA sample for research. I understand that my sample may be used in future research in a secure and anonymised fashion without my further permission.	
6. I agree that TEDS will not feedback any genetic results, as my sample is taken for statistical research purposes.	
7. I consent to the processing of my personal information for the purposes explained to me in the Information Sheet. I understand that such information will be handled under the terms of UK data protection law, including the UK General Data Protection Regulation (UK GDPR) and the Data Protection Act 2018.	
8. I consent to my data being used for academic research. I understand that confidentiality and anonymity will be maintained, and it will not be possible to identify me in any research outputs.	
9. I understand that my data may be shared with other researchers in a non-identifiable form for statistical research purposes.
